TURN 13 CABANAS

Once cars have made it through more than a half mile of straightaway at top speeds, they will slam the breaks to dive into tight Turn 12 and the slower stadium section modeled after the German Hockenheimring.

This is another perfect overtaking opportunity as the long straight creates a streaming opportunity to pass, but if done too early drivers could lose their position going into Turn 12.

The tight twisting turns of the stadium section will make for an exhilarating experience for fans as 24 cars weave their way through Turns 13-15.
